

ANNEXURE-23**AUTOMATION OF CLEARING SYSTEM (Robotic Process Automation)**

There should be provision for Automation Solution towards Cheque processing & Authorization using Artificial Intelligence (AI) and Machine Learning (ML) Technology to minimize /replace manpower requirement at the Clearing Centers up to a satisfactory confidence level with reasonably high precision.

Please Indicate whether,

SI No	Description	*Status of Availability (At least one of the below options should be 'Yes')
1	The Feature is available within the solution.	Yes/No
2	If Feature is not available ,then Bidder will tie up with third party for providing the feature	Yes/No
3	If the Feature is neither available nor the bidder will tie up with third party for providing the feature, if Bank provide the solution and Bidder can integrate the Feature.	Yes/No

Note: * At least one of the above three Options should be in 'Yes'.

For the above, the procurement will be done separately, hence it will not be a part of TCO.
